Traditional Neighborhood Development Overlay (TNDO)

Scenic Corridor Overlay (SCO)

Heavy Industry Overlay (HIO)

\*\*\*These pages are comprised of information gathered from the Stallings Development Ordinance but are not intended to be a substitute for the SDO adopted by Town Council.

# 8.4-1 Agriculture (AG)

## District Description

The Agriculture District (AG) is established to protect lands used for agricultural production, agricultural based businesses, and related activities. Farmland is a defining element of Stallings' traditional identity and the protection these lands aids in preserving the character of the Town. Listed uses are limited, with an emphasis on uses that are agricultural in nature.

Development density is very low to encourage the preservation of agricultural lands while discouraging large lot residential development. The Agriculture District can also be used to protect open spaces.

# 8.4-3 Multi-Family Residential Transitional (MFT)

## District Description

The intent of this district is to recognize that gradual transformation of existing development to high quality mixed density residential development is needed to support the central core of the Town. The higher density allows a greater number of households to walk or bike, reducing the parking demand and providing environmental and health benefits.

Streets in the Multi-Family Residential Transitional District should be interconnected, with streets and sidewalks providing a connection from Stallings's Town Center and other mixed-use districts to the Single-Family Residential districts surrounding these neighborhoods.

## Min. Dimensional Standards

Lot Size	5,000 SF
Lot Width	42 Feet
Front Yard Setback	12 Feet
Rear Yard Setback	4 Feet
Side Yard Setback	4 Feet
Corner Lot Side Yard Setback	8 Feet or as required by buffering standards and/or building type whichever is greater

## Additional Notes

Gross Residential Density Limit:

Single Family Detached: 7 units/acres

Single Family Attached: 16 units/acres

Building placement, parking placement, building type, urban form, access, and lot and lot arrangement shall be controlled by the lot and building type standards (Article 9) for the lot and building types listed in the Multi-Family Residential Transitional District (MFT).

# 8.4-4 Town Center District (TC)

## District Description

The intent of this district is to provide for new development, revitalization, and reuse in Stallings's core downtown. The development pattern seeks to integrate shops, restaurants, services, workplaces, civic, educational, and religious facilities, and higher-density housing in a compact, pedestrian-oriented environment.

It serves as the hub of the surrounding neighborhoods of the broader community. This district may be expanded over time to meet the needs of the growing community for downtown facilities and services.

# Civic District (CIV)

## District Description

The Civic District (CIV) provides a location for educational, medical, and other public uses. Large developments in the Civic District are encouraged to provide a master plan for the Town. Institutional uses are required to provide pedestrian connections on their campuses and, to the extent possible, develop an internal street system with structures fronting the streets.

Providing a unique district for civic and institutional uses will establish uniform standards. Parking should not be the dominant visible element of the campuses developed for institutional uses.

## 8.4-6 Mixed-Use District (MU-1)

### District Description

The Mixed-Use District (MU-1) is intended to provide opportunities for both compatible and sustainable re-development opportunities. This district is primarily used for residential purposes as well as commercial retail purposes to a lesser extent.

Development standards for this district promote the creation of a pleasant pedestrian-friendly auto-oriented environment while enabling compatible connectivity to adjacent districts.

# 8.4-10 Business Center (BC)

## District Description

The Business Center (BC) is established to provide locations for employment centered uses. The dominant uses in this district are light industrial and office. Ancillary retail and other supportive uses are permitted.

For planned developments, the external appearance of buildings and signage along with modes of ingress and egress, are planned to provide consistency throughout the development.

Hospitality like hotels, restaurants and necessary supportive uses like banks may also be allowed.

# Industrial (IND)

## District Description

The intent of the Industrial District (IND) is to provide locations for industrial uses that cannot be integrated into the community due to the scale of the buildings and/or the nature of the use. The dominant uses in this district are manufacturing and warehouse storage, which are buffered from adjacent uses.

The Industrial District is reserved for uses that require large buildings and/or parking and loading facilities.

# 8.5-1 Traditional Neighborhood Development Overlay (TNDO)

## District Description

Provides for the development of new neighborhoods and the revitalization or extension of existing neighborhoods. These neighborhoods are structured upon a fine network of interconnecting pedestrian-oriented streets and other public spaces. This district provides a mixture of housing types and prices, prominently sited civic or community building(s), stores/offices/workplaces, and churches to provide a balanced mix of activities.

A Traditional Neighborhood Development (TND) is urban in form and is typically an extension of the existing developed area of the Town. TNDO districts should have a significant portion of land dedicated to improved open spaces, and reserve un-improved open spaces where environmentally sensitive areas are located.

## TND Design Requirements

The area of the TND shall be divided into blocks, streets, lots, and open space.

Similar land uses shall generally front across each street. All lots shall share a frontage line with a street or square; lots fronting a square shall be provided rear alley access.

## Dimensional Standards

Minimum Development Size	10 acres
Maximum Development Size	none

## Residential Density Limits

Single Family Detached: 7 units/acre  
 Single Family Attached: 12 units/acre  
 Multifamily: See 10.1-24 for Multifamily limits

## Additional Notes

Building placement, parking placement, building type, urban form, access, and lot arrangement shall be controlled by the lot and building type standards (Article 9) for the lot and building types listed in the Traditional Neighborhood Development Overlay District and by the standards set forth in section 8.5-1 (F).

A master site development plan is required.

## Primary Uses

### Listed Building and Lot Types:

- Urban Workplace
- Shop-front Commercial
- Multi-family Building
- Detached House
- Attached House
- Civic Building

### Listed Use Examples:

## 8.5-2 Scenic Corridor Overlay (SCO)

### District Description

The Scenic Corridor Overlay (SCO) intends to protect the pastoral scenes and open spaces that provide a sense of arrival for residents and visitors traveling the major entrance roads and gateways to the Town.

The goal of this district is to protect the scenic value of the corridors through a mix of incentives and development standards. These standards will preserve the suburban character of the Town by; maintaining the sense of a suburban corridor in an urban environment, provide an aesthetically appealing experience for those traveling the corridor, provide multi-modal transportation options for travel, and promote a safe transportation corridor for vehicles and pedestrians.

### Listed Activities

May be used for passive recreation, agricultural uses, and equestrian uses. No other use shall be listed within the scenic corridor easement.

No building construction, parking, land disturbing activity, signs, tree removal, lighting, or other development activity shall occur within this district unless supporting one of the listed activities and is approved as a Special Use.

### Dimensional Standards

Width of scenic easement within the Suburban Scenic Corridor	10% of lot depth but no more than 100 Feet from r/w
Width of scenic easement within the Gateway Scenic Corridor	10% of lot depth but no more than 50 Feet from r/w
Width of scenic easement within the Bypass Scenic Corridor	10% of lot depth but no more than 75 Feet from r/w

### Additional Notes

There shall be a minimum separation of 500 feet between curb cuts in the suburban scenic corridors.

The lot type standards and building type standard listed in the underlying district, as set forth in Section 8.4 and further described in Article 9.

### Corridor Types

Suburban Scenic Corridor – development is limited, consisting largely of fields, pastures, and scattered residential uses.

Gateway Scenic Corridor - serves as an entrance way to a place that is unique and different from other communities in the area. May be more developed than the suburban scenic corridor.

Bypass Scenic Corridor - providing for buffering of the Bypass to protect the traffic carrying capacity of the road. Requires an undeveloped setback from the bypass.
